

Student with

COVID-19 SYMPTOMS:

Fever or chills, cough, shortness of breath, fatigue, muscle/body aches, loss of taste or smell, sore throat, congestion, nausea, vomiting, and/or diarrhea that cannot be explained by another reason such as allergies, etc. [CDC Symptoms of COVID-19](#)

Student who develops new, unexplained symptoms should not return to campus until it is clear that symptoms are mild and improving or are due to a non-infectious cause (e.g., allergies). This includes waiting until 24 hours have passed since resolution of fever without the use of fever-reducing medications.

If symptoms are concerning for COVID-19, it is strongly recommended that student gets tested immediately and should wear well-fitting mask around others for a total of 10 days, especially in indoor settings. Student who tests positive for COVID-19, follow LCER's flowchart - [Student Who Test Positive for COVID-19](#).

Only positive student cases must notify school health office.
Rapid antigen tests are available for free in the school health office.
